EXECUTIVE SUMMARY

0 Reading This Pack

Biltflow is entering a large, fragmented and rapidly digitising market. This pack maps three things a website and go-to-market strategy both depend on: who the buyers are (by company and by role), what they are already using or considering, and how Biltflow should be positioned against that landscape.

150+ Named builders & developers across NSW, QLD, VIC	40 Distinct buyer / influencer roles mapped	90+ Global construction & property technology products	13 Software categories spanning the full lifecycle
--	--	---	---

Three findings should shape the website brief. First, the target market is broader than the strict Class 2 label — high-density residential, mixed-use, hotels, serviced apartments and build-to-rent all share the same complex, software-intensive delivery workflow, and the site should speak to all of them. Second, purchase decisions are never made by one person: executives, commercial teams, construction leadership, digital/IT and site teams all evaluate a platform like Biltflow through a different lens, and the site needs a persona pathway for each. Third, the competitive landscape is heavily fragmented across enterprise suites, ERPs, point solutions and owner platforms — which is precisely the gap an integration-first "construction operating system" is positioned to close.

Live relationship to note

Coronation Property (Nation BTR brand) is not a cold prospect — it is Biltflow's anchor client, led by Managing Director Joe Nahas, Strategic Advisor to Biltflow/Hunt Global. It should be treated as a reference case and design input, not just a market-map entry.

SECTION 1

1 What Market Is Biltflow Serving?

This pack deliberately treats the target market as broader than any single regulatory label. Understanding why requires a short walk through the asset classes Biltflow is built for.

1.1 Class 2 and High-Density Residential

Under the National Construction Code, Class 2 buildings are buildings containing two or more sole-occupancy units — typically apartment buildings. In New South Wales, regulated-building obligations under the Design and Building Practitioners (DBP) Act now extend to Class 2, Class 3 and Class 9c buildings, requiring registered design and building practitioners to lodge regulated designs and compliance declarations on the NSW Planning Portal. For Biltflow, the practical market is wider than this legal label: multi-storey apartment projects, mixed-use towers, build-to-rent, hotels and serviced apartments all share the same complex design, procurement, commercial, programme, quality and handover workflows — which is why this pack maps all of them together.

1.2 What Is a Fully Integrated Builder-Developer?

A fully integrated builder-developer controls multiple stages of the property lifecycle inside the same corporate group, rather than acting only as a developer that appoints an external head contractor. The integrated group may acquire land, run feasibility, obtain planning approvals, manage design, procure consultants and subcontractors, construct the project, sell or lease the product, manage settlements and defects, and sometimes retain or operate the completed asset.

- Why it matters to Biltflow: one customer can have development, construction, commercial, finance, design, safety, procurement and operations teams all using different systems and duplicating the same data.
- The opportunity is an integrated data and workflow layer connecting the project from feasibility and design through procurement, delivery, commissioning, handover and operations.
- Examples of integrated models include Deicorp in Sydney and Pace Development Group in Melbourne, both of which describe end-to-end development and construction capability.

1.3 High-Density Residential Construction

High-density residential construction generally means multi-storey apartment development where many dwellings are delivered within one building or precinct. Projects typically involve complex structures, façades, vertical transport, fire and life-safety systems, building services, authority approvals, hundreds of subcontract packages, large drawing and model sets, staged commissioning, and defects and purchaser or resident handover. This complexity is precisely what makes these projects highly software-intensive — and why the volume and complexity of the bill of quantities multiplies compared with detached housing.

1.4 Hotels

Hotel projects combine complex construction with an operating business. In addition to normal building delivery, teams coordinate brand standards, operator requirements, front-

of-house and back-of-house layouts, commercial kitchens, guest-room prototypes, FF&E/OS&E procurement, technology, acoustics, life safety, commissioning and a tightly controlled opening date. The owner, developer, builder, hotel operator and brand may all be different organisations, which multiplies the number of stakeholders a single platform needs to serve.

1.5 Serviced Apartments

Serviced apartments sit between residential apartments and hotels. Individual units are designed for short- or extended-stay accommodation and typically include kitchens or kitchenettes, while the building may operate with hotel-style reception, housekeeping, booking, maintenance and guest services. Meriton Suites is a well-known Australian example of the integrated apartment / serviced-apartment model — and illustrates why a single tower can require several different fit-out specifications and compliance classes to be tracked within one construction programme.

1.6 Build-to-Rent (BTR)

Build-to-rent is purpose-built rental housing retained by an institutional owner or investment vehicle rather than sold apartment-by-apartment. Because the owner normally retains the asset, decisions made during design and construction directly affect long-term leasing, maintenance, energy performance, resident experience and operating cost. That creates a strong case for maintaining a continuous digital record from development and construction through into operations — the exact thread that connects Biltflow's development, delivery and operations use cases.

SECTION 2

2 Target Builders and Developers — NSW, QLD, VIC

There is no single public, authoritative register covering every relevant apartment builder and developer across NSW, Queensland and Victoria — and NSW additionally has its own regulated-building regime for Class 2, 3 and 9c buildings. The lists below are therefore a curated, commercially relevant target universe rather than a statutory register: a living market map, not a legal list. They deliberately include developers, head contractors and integrated builder-developers, because all three are potential Biltflow buyers or influencers. National companies are repeated in each state where they have meaningful activity.

Scope note

This document combines and supersedes earlier drafts of the market map. Company names, business models, focus areas and websites have been checked against current sources, but should be spot-verified before external distribution — particularly for smaller or private developers, and for any company used as a named customer example.

2.1 New South Wales

Company	Business model	Relevant focus	Website
Mirvac	Integrated developer / builder	Apartments, mixed-use, BTR, commercial	Mirvac
Lendlease	Developer / delivery platform	Mixed-use, apartments, urban regeneration, BTR	Lendlease
Frasers Property Australia	Developer	Apartments, mixed-use, communities, BTR	Frasers Property Australia
Sekisui House Australia	Developer / builder	Apartments, mixed-use, masterplanned residential	Sekisui House Australia
Meriton	Integrated developer / builder / operator	High-rise apartments, serviced apartments, hotels	Meriton
TOGA Group	Developer / hotel operator	Apartments, mixed-use, hotels	TOGA Group
Deicorp	Integrated developer / builder	Transport-oriented high-density residential, retail	Deicorp
Billbergia	Integrated developer / builder	High-rise apartments, mixed-use, masterplans	Billbergia
ALAND	Integrated developer / builder	High-density apartments, mixed-use	ALAND
Urban Property Group	Integrated developer / builder	Apartments, mixed-use, urban renewal	Urban Property Group
Coronation Property	Developer — Biltflow anchor client (Nation BTR brand)	Apartments, mixed-use, BTR / urban precincts	Coronation Property
Aqualand	Developer / investor	Luxury apartments, mixed-use, commercial	Aqualand
Central Element	Developer	Luxury apartments, hotels, mixed-use	Central Element
Hyecorp	Integrated developer / builder	Apartments, mixed-use, funds management	Hyecorp

Company	Business model	Relevant focus	Website
GURNER	Developer / operator	Luxury apartments, BTR, hotels, wellness, mixed-use	GURNER
Third.i	Developer	Apartments, mixed-use, retirement / lifestyle	Third.i
Iris Capital	Developer / investor	Apartments, mixed-use, hotels / hospitality	Iris Capital
Traders In Purple	Developer	Apartments, communities, mixed-use	Traders In Purple
Landmark Group Australia	Integrated developer / builder	Apartments, mixed-use	Landmark Group Australia
Level 33	Developer	Residential apartments and mixed-use	Level 33
Abadeen	Developer	Premium apartments, mixed-use	Abadeen
TWT Property Group	Developer	Design-led apartments and mixed-use	TWT Property Group
Ceeroose	Integrated developer / builder	Apartments, mixed-use, commercial	Ceeroose
JQZ	Developer	High-rise apartments and mixed-use	JQZ
Top Spring Australia	Developer	Apartments and mixed-use	Top Spring Australia
Legacy Property	Developer	Apartments, communities, mixed-use	Legacy Property
Piety Group	Developer	Residential and mixed-use	Piety Group
Capital Corporation	Developer	Residential, mixed-use, commercial	Capital Corporation
Conquest	Integrated developer / builder	Apartments, mixed-use	Conquest
Freecity	Developer / builder	High-density residential and mixed-use	Freecity
Decode Group	Builder / developer	High-density residential, mixed-use, commercial	Decode Group
Parkview Constructions	Builder	High-density residential, mixed-use, hotels	Parkview Constructions
Richard Crookes Constructions	Builder	Residential, hotels, health, education, commercial	Richard Crookes Constructions
Hutchinson Builders	Builder	Apartments, hotels, BTR, commercial	Hutchinson Builders
Multiplex	Builder	High-rise residential, hotels, commercial, major projects	Multiplex
BESIX Watpac	Builder	Residential, hotels, commercial, major projects	BESIX Watpac
Built	Builder	Residential, hotels, commercial, fitout	Built
Roberts Co	Builder	Residential, health, commercial, education	Roberts Co
Infinity Constructions	Builder	Residential, hotels, commercial	Infinity Constructions
Taylor Construction Group	Builder	Residential, mixed-use, commercial	Taylor Construction Group
Growthbuilt	Builder	Residential, mixed-use, aged care, hotels	Growthbuilt
FDC Construction	Builder	Commercial, industrial, residential, fitout	FDC Construction
Kane Constructions	Builder	Residential, hotels, health, commercial	Kane Constructions
Lipman	Builder	Residential, commercial, education, industrial	Lipman
ADCO Constructions	Builder	Commercial, residential, hotels, public sector	ADCO Constructions

Company	Business model	Relevant focus	Website
Hindmarsh	Developer / builder	Apartments, hotels, commercial, retirement	Hindmarsh
Dasco Australia	Builder / developer	Apartments and mixed-use	Dasco Australia
Novati Constructions	Builder	Residential, commercial, hospitality	Novati Constructions

2.2 Queensland

Company	Business model	Relevant focus	Website
Mirvac	Integrated developer / builder	Apartments, mixed-use, BTR, communities	Mirvac
Lendlease	Developer / delivery platform	Mixed-use, apartments, urban regeneration	Lendlease
Frasers Property Australia	Developer	Apartments, communities, mixed-use	Frasers Property Australia
Stockland	Developer	Communities, apartments, BTR, mixed-use	Stockland
Meriton	Integrated developer / builder / operator	High-rise apartments and serviced apartments	Meriton
Mosaic Property Group	Integrated developer / builder	Apartments, mixed-use, residential	Mosaic Property Group
ARIA Property Group	Developer	High-density apartments, mixed-use	ARIA Property Group
Consolidated Properties Group	Developer	Residential, retail, commercial, mixed-use	Consolidated Properties Group
Anthony John Group	Developer	Apartments, hotels, retail, mixed-use	Anthony John Group
Pradella	Integrated developer / builder	Apartments and mixed-use	Pradella
Pikos Group	Developer	Luxury apartments and mixed-use	Pikos Group
Kokoda Property	Developer	Apartments and mixed-use	Kokoda Property
Spyre Group	Developer	Luxury apartments	Spyre Group
Cavcorp	Integrated developer / builder	High-density residential / lifestyle precincts	Cavcorp
Azure Development Group	Developer	Residential communities and apartments	Azure Development Group
Aniko Group	Developer	Apartments and mixed-use	Aniko Group
Niecon	Integrated developer / builder	Gold Coast luxury apartments and mixed-use	Niecon
S&S Projects	Developer	Gold Coast luxury residential	S&S Projects
Hirsch & Faigen	Developer	Luxury apartments	Hirsch & Faigen
Devcorp	Developer	Residential and mixed-use	Devcorp
Keylin	Developer	Residential and mixed-use	Keylin
KTQ Group	Developer / hotel operator	Luxury residential, hotels, resorts	KTQ Group

Company	Business model	Relevant focus	Website
Gardner Vaughan Group	Integrated developer / builder	Apartments, retirement, communities	Gardner Vaughan Group
BHC	Community housing developer	Affordable housing, apartments, BTR-style housing	BHC
Cedar Pacific	BTR / student housing developer	BTR, student accommodation, institutional residential	Cedar Pacific
Greystar Australia	BTR developer / operator	Build-to-rent and rental housing	Greystar Australia
Sentinel Real Estate Australia	BTR developer / operator	Build-to-rent	Sentinel Real Estate Australia
GURNER	Developer / operator	Luxury apartments, BTR, hotels, wellness	GURNER
Arada Australia	Developer	High-rise residential and mixed-use	Arada Australia
Billbergia	Integrated developer / builder	Apartments and mixed-use	Billbergia
Traders In Purple	Developer	Apartments, communities, mixed-use	Traders In Purple
Honeycombes Property Group	Developer	Residential, retail, mixed-use	Honeycombes Property Group
Urbex	Developer	Communities and urban development	Urbex
Hutchinson Builders	Builder	Apartments, hotels, BTR, commercial	Hutchinson Builders
Multiplex	Builder	High-rise residential, hotels, commercial	Multiplex
BESIX Watpac	Builder	Residential, hotels, commercial, major projects	BESIX Watpac
McNab	Builder / developer	Apartments, commercial, industrial	McNab
Tomkins Commercial	Builder	Residential, hotels, commercial	Tomkins Commercial
Hansen Yuncken	Builder	Residential, commercial, health, education	Hansen Yuncken
Built	Builder	Residential, hotels, commercial	Built
ADCO Constructions	Builder	Residential, commercial, public sector	ADCO Constructions
Kane Constructions	Builder	Residential, hotels, health, commercial	Kane Constructions
Hacer Group	Builder	Residential, mixed-use, retail	Hacer Group
PBS Building	Builder	Residential and commercial	PBS Building

2.3 Victoria

Company	Business model	Relevant focus	Website
Mirvac	Integrated developer / builder	Apartments, mixed-use, BTR, communities	Mirvac
Lendlease	Developer / delivery platform	Urban regeneration, apartments, mixed-use	Lendlease
Frasers Property Australia	Developer	Apartments, communities, mixed-use	Frasers Property Australia
Stockland	Developer	Communities, apartments, BTR / mixed-use	Stockland

Company	Business model	Relevant focus	Website
GURNER	Developer / operator	Luxury apartments, BTR, hotels, wellness	GURNER
Salta Properties	Developer	Apartments, BTR, commercial, industrial	Salta Properties
Hamton Property Group	Developer	Apartments, BTR, communities	Hamton Property Group
Pace Development Group	Integrated developer / builder	Apartments, mixed-use, commercial	Pace Development Group
Beulah	Developer	High-rise residential, mixed-use, hotels	Beulah
Cbus Property	Developer	Premium apartments, commercial, mixed-use	Cbus Property
PDG Corporation	Developer	Residential, commercial, mixed-use	PDG Corporation
Little Projects	Developer	Apartments and mixed-use	Little Projects
Cedar Woods	Developer	Apartments, communities, mixed-use	Cedar Woods
Neometro	Integrated developer / builder	Design-led apartments and mixed-use	Neometro
Milieu	Developer	Design-led apartments and mixed-use	Milieu
MAB Corporation	Developer	Residential, commercial, mixed-use	MAB Corporation
Riverlee	Developer	Mixed-use, residential, commercial	Riverlee
Golden Age Group	Developer	Apartments, mixed-use, communities	Golden Age Group
ICD Property	Developer	High-rise residential, hotels, mixed-use	ICD Property
SP Setia Australia	Developer	Apartments and mixed-use	SP Setia Australia
OSK Property Australia	Developer	High-rise apartments and mixed-use	OSK Property Australia
UEM Sunrise Australia	Developer	High-rise residential and mixed-use	UEM Sunrise Australia
Samma Property Group	Developer	Apartments, BTR / affordable housing	Samma Property Group
Home (GFM)	BTR developer / operator	Build-to-rent	Home (GFM)
Greystar Australia	BTR developer / operator	Build-to-rent	Greystar Australia
Sentinel Real Estate Australia	BTR developer / operator	Build-to-rent	Sentinel Real Estate Australia
Lowe Living	Integrated developer / builder	Apartments, townhouses, communities	Lowe Living
Glenvill	Integrated developer / builder	Residential and medium-density	Glenvill
Mirrastone / SOHO Living	Integrated developer / builder	Residential, medium-density, BTR delivery	Mirrastone / SOHO Living
Hickory	Builder / developer	High-rise residential, hotels, commercial, modular	Hickory
Icon	Builder	Residential, hotels, commercial	Icon
Multiplex	Builder	High-rise residential, hotels, commercial	Multiplex
Hutchinson Builders	Builder	Apartments, hotels, commercial	Hutchinson Builders

Company	Business model	Relevant focus	Website
Hacer Group	Builder	Apartments, mixed-use, retail	Hacer Group
Hamilton Marino	Builder	Apartments, BTR, hotels, mixed-use	Hamilton Marino
Crema Constructions	Builder / developer	Apartments, hotels, commercial	Crema Constructions
Kapitol Group	Builder	Commercial, residential, hotels	Kapitol Group
Kane Constructions	Builder	Residential, hotels, health, commercial	Kane Constructions
Built	Builder	Residential, hotels, commercial	Built
Hansen Yuncken	Builder	Residential, commercial, health, education	Hansen Yuncken
BESIX Watpac	Builder	Residential, hotels, commercial, major projects	BESIX Watpac
ADCO Constructions	Builder	Residential, commercial, public sector	ADCO Constructions
Figurehead Construction	Builder	Residential, commercial, mixed-use	Figurehead Construction
Cobild	Builder	Premium residential and commercial	Cobild
ABD Group	Builder	Apartments, commercial, aged care	ABD Group
Balmain & Co	Builder	Residential, hotel, mixed-use	Balmain & Co
Valeo Construction	Builder	Residential and commercial	Valeo Construction

SECTION 3

3 Who Buys Biltflow? Buyer and Influencer Role Map

Construction technology is rarely purchased by one person. Enterprise deals normally require an executive sponsor, functional champions, IT/security approval, commercial justification and end-user adoption. The most important website implication is that Biltflow should speak to several audiences at once: executives want control and margin; project teams want less admin; commercial teams want cost certainty; IT wants a secure, integrated architecture; and site teams want speed and simplicity.

Function	Role / title	Why they care about Biltflow
Board / C-suite	CEO / Managing Director	Strategic sponsor; platform standardisation, growth, risk and margin.
Board / C-suite	COO / Chief Operating Officer	Operational consistency across projects and business units.
Board / C-suite	CFO / Finance Director	ERP, financial controls, cost visibility, forecasting, ROI.
Board / C-suite	CIO / CTO / Chief Digital Officer	Architecture, cybersecurity, integrations, data governance, vendor strategy.
Board / C-suite	Chief Transformation Officer	Enterprise change, process redesign and technology adoption.
Board / C-suite	Chief Risk Officer / General Counsel	Contractual, compliance, audit and enterprise risk controls.
Construction leadership	Construction Director / Head of Construction	Delivery performance, site standards, risk, productivity.
Construction leadership	General Manager – Construction	Portfolio-wide construction operations and systems.
Construction leadership	Operations Manager	Resource deployment, standard workflows, operational reporting.
Construction leadership	Project Director	Large-project sponsor and senior user; cross-functional workflow owner.
Construction leadership	Senior Project Manager / Project Manager	Day-to-day adoption across programme, cost, RFIs, procurement, delivery.
Site delivery	Senior Site Manager / Site Manager	Field workflows, quality, safety, logistics, productivity.
Site delivery	General Foreman / Structures Foreman	Daily planning, workforce, sequencing, inspections, site execution.
Commercial	Commercial Director / Group Commercial Manager	Commercial governance, cost, contracts, claims, procurement.
Commercial	Contracts Manager	Contracts, procurement, claims, variations, subcontractor management.
Commercial	Senior Contracts Administrator / Contracts Administrator	High-frequency commercial system user and workflow owner.
Commercial	Procurement Director / Group Procurement Manager	Procurement standards, tendering, supplier data, buying power.
Commercial	Head of Estimating / Estimating Manager	Preconstruction, estimating, tender handover and cost libraries.
Commercial	Quantity Surveying / Cost Planning Lead	Cost planning, forecasting, benchmarking and controls.
Development	Development Director / Head of Development	Feasibility-to-handover visibility and development governance.

Function	Role / title	Why they care about Biltflow
Development	Development Manager / Senior Development Manager	Approvals, consultants, programme, cost and stakeholder workflows.
Development	Acquisitions Director / Investment Director	Feasibility, underwriting, pipeline and investment data.
Development	Head of Design / Design Director	Design coordination, approvals, BIM, consultant workflows.
Development	Design Manager	Design programme, RFIs, reviews, document/model coordination.
Development	Planning Director / Planning Manager	Approvals, statutory milestones, consultant coordination.
Digital / technology	Head of Digital / Digital Construction Director	Core buyer/champion for construction technology strategy.
Digital / technology	BIM / Digital Engineering Manager	Models, CDE, coordination, data standards and handover.
Digital / technology	IT Director / Head of IT	Security, identity, systems, support, enterprise integration.
Digital / technology	Enterprise Architect / Integration Lead	API strategy, data flows, system-of-record decisions.
Digital / technology	Data / Analytics Director	Portfolio data model, BI, AI readiness and reporting.
Finance / controls	Financial Controller / Project Finance Director	Project accounting, controls, reconciliations and reporting.
Finance / controls	Head of Project Controls	Cost, schedule, risk, forecasting and portfolio reporting.
Finance / controls	Planning / Scheduling Manager	Programme governance, schedule data and delay analytics.
Risk / compliance	Head of HSEQ / WHS Director	Safety, quality, environment, compliance systems.
Risk / compliance	Quality Manager	ITPs, inspections, defects, NCRs, completion records.
Risk / compliance	Safety Manager	Inductions, permits, incidents, observations, compliance.
Risk / compliance	Risk & Compliance Manager	Audit trails, regulatory obligations and governance.
Post-construction / operations	Head of Customer / Customer Experience Director	Handover, defects, resident / purchaser experience.
Post-construction / operations	Facilities / Asset Manager	Digital handover, asset data and maintenance systems.
Post-construction / operations	Property Operations Director / BTR Operations Lead	Building operations, residents, leasing and service performance.
Procurement influencers	Project Engineer / Senior Project Engineer	Technical workflows, RFIs, QA, coordination, field data.
Procurement influencers	Document Controller / Information Manager	CDE governance, transmittals, registers and compliance.
Procurement influencers	Systems / Applications Manager	Configuration, administration, adoption, support and integration.

3.1 Highest-Priority Economic Buyers

- CEO / Managing Director — enterprise sponsor where Biltflow is positioned as the operating system for the business.
- COO / Construction Director / GM Construction — owns delivery consistency, productivity and project performance.

- CFO / Finance Director / Commercial Director — owns cost control, financial governance, procurement and measurable ROI.
- CIO / CTO / Chief Digital Officer / Head of Digital — owns system architecture, integrations, data, cyber and platform strategy.
- Development Director — critical for integrated developer-builders, since the platform must connect preconstruction and development to delivery.
- Group Commercial Manager / Procurement Director — strong buyer where Biltflow displaces fragmented procurement, contract and cost workflows.

3.2 Strong Internal Champions

Digital Construction, BIM/Digital Engineering, Project Controls, Commercial, Design Management, HSEQ, Project Management and Systems/Applications leaders are often the people who identify the pain, evaluate products, run pilots and build the internal business case. The website should therefore include role-specific proof points rather than only generic "project management software" language.

SECTION 4

4 Global Construction & Property Technology Landscape

This section is intentionally broad. Biltflow is not competing with every product below feature-for-feature — many are systems Biltflow may integrate with, coexist alongside, replace in selected workflows, or use purely as design and positioning references. The market is fragmented across point solutions, suites, ERPs and owner/developer platforms — exactly the fragmentation an integration-first construction operating system can address.

Category	Company / product	What it does	Website
Core CDE / PM	Procore	Project execution, cost, documents, field, analytics, AI	Procore
Core CDE / PM	Oracle Aconex	Document control, workflows, correspondence, models, field	Oracle Aconex
Core CDE / PM	Autodesk Construction Cloud	Docs, Build, BIM Collaborate, Takeoff, cost	Autodesk Construction Cloud
Core CDE / PM	Trimble Viewpoint	Construction ERP, project management, field	Trimble Viewpoint
Core CDE / PM	Trimble ProjectSight	Project management and field collaboration	Trimble ProjectSight
Core CDE / PM	InEight	Project controls, cost, schedule, documents, completions	InEight
Core CDE / PM	Thinkproject	CDE, document control, asset information	Thinkproject
Core CDE / PM	Asite	CDE, project controls, digital engineering	Asite
Core CDE / PM	Bentley ProjectWise	Engineering document / model collaboration	Bentley ProjectWise
Core CDE / PM	Dalux	BIM, field, documents, handover	Dalux
Core CDE / PM	RIB 4.0 / MTWO	Enterprise construction platform	RIB 4.0 / MTWO
Core CDE / PM	LetsBuild	Planning, field management, progress	LetsBuild
Core CDE / PM	Fieldwire (Hilti)	Field task, plan and issue management	Fieldwire (Hilti)
Core CDE / PM	PlanRadar	Field documentation, QA, defects, reporting	PlanRadar
ERP / commercial	Jobpac Connect	Construction ERP, job costing, finance, payroll (ANZ)	Jobpac
ERP / commercial	Cheops	Construction ERP, finance, job costing, contracts (ANZ)	Cheops
ERP / commercial	Viewpoint Vista	Construction ERP and accounting	Viewpoint Vista
ERP / commercial	CMiC	Construction ERP and project management	CMiC
ERP / commercial	Sage 300 Construction and Real Estate	Construction accounting / ERP	Sage 300 CRE
ERP / commercial	Sage Intacct Construction	Cloud financial management	Sage Intacct
ERP / commercial	Jonas Construction	Construction accounting / ERP	Jonas Construction
ERP / commercial	COINS	Construction ERP	COINS
ERP / commercial	IFS Cloud Construction	Enterprise project / asset ERP	IFS Cloud Construction

Category	Company / product	What it does	Website
ERP / commercial	Microsoft Dynamics 365	ERP/CRM often configured for construction and property	Dynamics 365
ERP / commercial	Oracle NetSuite	Cloud ERP used by property / construction groups	Oracle NetSuite
ERP / commercial	MYOB Advanced Construction	Cloud ERP for AU/NZ construction businesses	MYOB Advanced Construction
Procurement / subbie	ProcurePro	Construction procurement, tendering, scopes, approvals	ProcurePro
Procurement / subbie	BuildingConnected (Autodesk)	Bid management and subcontractor network	BuildingConnected
Procurement / subbie	ConWize	Estimating and bid management	ConWize
Procurement / subbie	COMPASS (Bespoke Metrics)	Subcontractor prequalification / risk	COMPASS (Bespoke Metrics)
Payments / claims	Payapps	Progress claims and payment applications	Payapps
Payments / claims	Oracle Textura	Construction payment management	Oracle Textura
Payments / claims	PayShepherd	Contractor compliance and payment management	PayShepherd
Safety / compliance	HammerTech	Safety, site operations, inductions, permits	HammerTech
Safety / compliance	SignOnSite	Site attendance, inductions, safety workflows	SignOnSite
Safety / compliance	SafetyCulture	Inspections, audits, training, issue management	SafetyCulture
Safety / compliance	SiteDocs	Digital safety management	SiteDocs
Safety / compliance	1Breadcrumb	Construction safety, compliance, site access	1Breadcrumb
Safety / compliance	HazardCo	Health & safety management	HazardCo
Quality / defects / handover	Novade	Field, quality, safety, workforce	Novade
Quality / defects / handover	Autodesk Build — Quality	Quality, safety, RFIs, submittals, cost, field	Autodesk Build
Quality / defects / handover	Procore Quality & Safety	Inspections, observations and compliance	Procore Quality & Safety

<i>Estimating / takeoff</i>	Buildsoft Cubit	Estimating and takeoff	Cubit
<i>Estimating / takeoff</i>	RIB CostX	2D/3D/BIM takeoff and estimating	CostX
<i>Estimating / takeoff</i>	Bluebeam Revu	PDF markup, takeoff and collaboration	Bluebeam
<i>Estimating / takeoff</i>	STACK	Cloud takeoff and estimating	STACK
<i>Estimating / takeoff</i>	Togal.AI	AI takeoff	Togal.AI
<i>Estimating / takeoff</i>	Beck Technology DESTINI Estimator	Preconstruction estimating	DESTINI Estimator
<i>Estimating / takeoff</i>	Buildxact	Cloud estimating, takeoff and job management (residential)	Buildxact
<i>Estimating / takeoff</i>	PlanSwift	Digital takeoff software	PlanSwift
<i>Estimating / takeoff</i>	Databuild	Estimating, scheduling and CRM for AU residential builders	Databuild
<i>BIM / design coordination</i>	Autodesk Revit	BIM authoring	Revit
<i>BIM / design coordination</i>	Autodesk Navisworks	Model coordination and clash detection	Navisworks
<i>BIM / design coordination</i>	Solibri	Model checking and BIM quality assurance	Solibri
<i>BIM / design coordination</i>	Revizto	Integrated BIM coordination and issue tracking	Revizto
<i>BIM / design coordination</i>	Newforma	Project information management for AEC	Newforma
<i>BIM / design coordination</i>	Speckle	Open data platform for AEC models	Speckle
<i>Workforce / resources</i>	Assignar	Workforce, equipment, compliance and field operations	Assignar
<i>Workforce / resources</i>	Raken	Daily reports, time, production tracking	Raken
<i>Workforce / resources</i>	Rhumbix	Field workforce / time and production	Rhumbix
<i>Workforce / resources</i>	Bridgit	Construction workforce planning	Bridgit
<i>Workforce / resources</i>	Mastt	Capital project portfolio / project controls	Mastt
<i>Developer / owner platform</i>	Oracle Primavera Unifier	Capital planning, cost control, business processes	Primavera Unifier

Category	Company / product	What it does	Website
Developer / owner platform	e-Builder (Trimble)	Capital program management for owners	e-Builder
Developer / owner platform	Kahua	Capital program / project management	Kahua
Developer / owner platform	Aurigo Masterworks	Capital planning and project controls	Aurigo Masterworks
Developer / owner platform	Northspyre	Real estate development project / cost management	Northspyre
Developer / owner platform	Dealpath	Real estate investment / development deal management	Dealpath
Developer / owner platform	Procore for Owners	Owner/developer project lifecycle management	Procore for Owners
Property / asset operations	MRI Software	Property management, finance, leasing, asset management	MRI Software
Property / asset operations	Yardi	Property management, investment, BTR / multifamily	Yardi
Property / asset operations	RealPage	Multifamily property operations and revenue systems	RealPage
Property / asset operations	Entrata	Multifamily property management platform	Entrata
Property / asset operations	AppFolio	Property management software	AppFolio
Property / asset operations	PropertyMe	Property management platform (AU)	PropertyMe
Property / asset operations	Property Tree	Property management / trust accounting (AU)	Property Tree
Property / asset operations	Re-Leased	Commercial property management	Re-Leased
Facilities / asset mgmt	Planon	IWMS / facilities and real estate management	Planon
Facilities / asset mgmt	IBM Maximo	Enterprise asset management	IBM Maximo
Facilities / asset mgmt	FM:Systems	Workplace / facilities management	FM:Systems
AI / document intelligence	Document Crunch	AI contract review / risk for construction	Document Crunch
AI / document intelligence	Trunk Tools	AI construction knowledge / agents	Trunk Tools
AI / document intelligence	AirWorks	AI-powered civil / site takeoff and mapping	AirWorks
Contracts / e-signature	DocuSign	Electronic signatures and agreement workflows	DocuSign
Contracts / e-signature	Adobe Acrobat Sign	Electronic signature workflows	Acrobat Sign
Data / BI / integration	Microsoft Power BI	Analytics / dashboards	Power BI
Data / BI / integration	Snowflake	Cloud data platform	Snowflake
Data / BI / integration	Databricks	Lakehouse / AI data platform	Databricks

Category	Company / product	What it does	Website
Data / BI / integration	MuleSoft	Enterprise integration / APIs	MuleSoft

4.1 The Competitive Landscape Biltflow Should Show Visually

- Enterprise suites: Procore, Autodesk Construction Cloud, Oracle Aconex / Primavera / Unifier, InEight, RIB and Trimble.
- Construction ERP / commercial systems: Jobpac, Cheops, Viewpoint, CMiC, Sage, COINS and NetSuite / Dynamics deployments.
- Best-of-breed point solutions: ProcurePro (procurement); HammerTech, 1Breadcrumb and SignOnSite (safety/site); Payapps and Textura (claims); Buildsoft, CostX and Bluebeam (estimating/takeoff); OpenSpace, Buildots and Doxel (progress intelligence).
- Owner/developer systems: Primavera Unifier, e-Builder, Kahua, Aurigo, Northspyre and Dealpath.
- Property operations: MRI, Yardi, RealPage, Entrata, AppFolio, PropertyMe and Property Tree.
- AI-native layer: Document Crunch, Trunk Tools, Buildots, nPlan, ALICE, Togonal.AI and other emerging construction-specific AI products.

SECTION 5

5 What the Biltflow Website Should Communicate

The market map suggests Biltflow should not present itself as another isolated project-management application. The stronger position is a construction and development operating system that can connect existing tools, standardise workflows, create a shared data layer, and use AI across the full project lifecycle.

- Lead with the business problem: construction companies are running critical workflows across disconnected systems, spreadsheets, inboxes, PDFs and project-specific tools.
- Position Biltflow as the connective operating layer — not "rip and replace everything" by default. Show integrations prominently.
- Show lifecycle coverage: Development → Design → Preconstruction → Estimating → Procurement → Commercial → Construction → Safety & Quality → Commissioning → Handover → Operations.
- Create persona pathways: For Executives, For Construction, For Commercial, For Development, For Site Teams, For Digital/IT.
- Create asset-class pathways: High-Density Residential, Build-to-Rent, Hotels & Serviced Apartments, Mixed-Use.
- Use portfolio-level language, not just project-level language: enterprise controls, standardisation, cross-project intelligence, data governance, benchmarking and forecasting.
- Make AI tangible: summarise project risk, interrogate contracts/drawings, predict schedule/cost issues, automate workflows, surface decisions and create executive intelligence from live project data.
- Use competitor websites primarily for information architecture and market education, while making Biltflow visually more modern, integrated and AI-native.

SECTION 6

6 Website Reference Shortlist for the Designer

Reference	Why it matters	Website
Procore	Best reference for broad construction-platform category architecture	https://www.procore.com
Oracle Construction & Engineering	Enterprise owner/contractor suite and lifecycle breadth	https://www.oracle.com/construction-engineering/
Autodesk Construction Cloud	Strong ecosystem / workflow presentation	https://construction.autodesk.com
ProcurePro	Excellent focused construction-tech positioning and clear buyer pain	https://procurepro.co
HammerTech	Good field/safety-focused construction brand and product messaging	https://hammertech.com
OpenSpace	Strong AI/reality-capture storytelling and visual product proof	https://www.openspace.ai
Buildots	Strong AI-native construction messaging	https://buildots.com
Trunk Tools	AI-agent / construction knowledge positioning	https://trunktools.com
Northspyre	Developer/owner-oriented software messaging	https://www.northspyre.com
Deicorp	Integrated builder-developer customer reference	https://deicorp.com.au
Pace Development Group	Integrated developer-builder brand/reference	https://pacedg.com.au
GURNER	Premium developer/operator brand reference	https://gurner.com.au
Mirvac	Large integrated property group / portfolio storytelling	https://www.mirvac.com
Hickory	Builder/developer + innovation-led construction brand	https://www.hickory.com.au

6.1 Recommended Use

Give this pack to the website designer as a market orientation document, then use the reference shortlist to create a Biltflow-specific sitemap, homepage narrative, persona pages, solution pages, integration architecture and competitor differentiation matrix.

SECTION 7

7 Research Notes and Source Anchors

The market changes frequently through acquisitions, insolvencies, new entrants and state expansion. Before using any company publicly as a customer example or named prospect, confirm current status and project activity.

- NSW Government — regulated building developer obligations
- NSW Government — building classes under the DBP scheme
- Australian residential developer directories (e.g. Popurise)
- Procore, ProcurePro and Oracle Construction & Engineering product/positioning pages
- Pace Development Group and Deicorp — integrated builder-developer references
- Billbergia — integrated developer-builder reference

This pack should be treated as a living market map, not a statutory register. Company structures, product lines and URLs change — verify before external use.
